ABOUT US

When it comes to the relationship between the consumers and their service providers, the phrase 'Ignorance is bliss' has never been farther from the truth. The same applies to the Rideshare industry.

RideShare Advocate is a leading advocate group for the rights and privileges of RideShare users. We are motivated by the need to make conscious efforts to bridge the ignorance gap between passengers and RideShare service provider. We provide a common front where a community of RideShare passengers can draw reliance and share experiences with each other in order to get the best possible experience from their providers.

We provide informal training sessions about RideShare passenger safety. We offer a consulting service to Colleges/organizations on creating safe drop off zones for passengers. We also rely on feedback to advocate for certain regulations & standards that can ensure safety and fairness for the benefit of everyone in the industry.

WHAT WE DO

- **RideShare passenger safety:**
We offer safety tips that could be helpful to passengers in case of road mishap or emergency. We also enlighten them on how to best make these situations as avoidable as possible.
- **RideShare passengers education:**
We offer general education on how to make passengers' RideShare experience worthwhile. We do an overview of service providers in your areas so that you will be in the best position to decide what particular service you would like to patronize.
- **RideShare Consulting Services for Colleges:**
We serve as a consultant agency to colleges.
- **Understanding Passengers rights:**
When the purpose is unknown, abuse is inevitable. That's why we preoccupy ourselves with enlightening passengers on their rights as consumers and in the RideShare community.
- **Legal options:**
The greatest incitement to crime is the prospect of escaping punishment. That is why we make provision for legal services. We present legal options available to passengers seeking to redress when they feel their rights have been trampled upon by their service providers.
- **RideShare news:**
We provide the latest news and updates in the world of RideShare passengers. This creates a community where information is exchanged and people are updated on the latest development about RideShare in their area.
- **Being an advocate for Passenger's causes:**
Aside from our legal option and advice, we serve as a pressure group to press home demands that can reform the RideShare industry. We advocate for better service conditions from all the providers.
